

# Bobcat®

## Sweeping

## Attachments

# Bobcat brooms make a clean sweep!

## ■ A new angle on sweeping

Cleaning takes on a whole new perspective with Bobcat's angle broom attachment. You can use it with a wide range of Bobcat loaders\*, for a load of applications:

- Quickly and efficiently sweep away dirt, light snow and other debris;
- Use it for quick snow removal, without damaging pavement surfaces;

- Sweep flush alongside a curb or wall;
- Adjust the broom angle with the fingertip controls (optional);
- Manually adjust the 3 angle positions of the 48" broom to obtain perfect results;
- The storage stand prevents bristle distortion when you aren't using the broom.

(\*) Check with your dealer for compatibility with Bobcat telescopic handlers.

ANGLE BROOM

## ■ Give dirt the push!

With the Bobcat whisker push broom, you can sweep 20 - 30 times faster than by hand! Dramatically cut the cost of cleaning up all kinds of debris from all kinds of sites:

- Use it for both wet or dry debris;
- You can quickly and easily clean along curbs and in tight areas;
- No flying debris and minimal dust make it a safer and healthier sweeping solution;
- It quickly attaches to the loader bucket;
- You can sweep moving both forward and in reverse.

## WHISKER PUSH BROOM

When using the sweeper, add the water kit to help reduce dust (also suitable for the planer, vibratory roller, angle broom, etc). An electric pump supplies water to the nozzles on the attachment.

## SWEeper

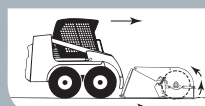

## ■ This attachment sweeps the board!

With just one attachment, you can sweep up and dispose of dirt and debris. The Bobcat sweeper's polypropylene bristles deposit dirt and other debris in the bucket. When it's full, just dump it!

- You can also use it to spread materials evenly across your worksite;
- Choose from several sizes, ranging from 44" to 84";
- The sweepers fit a variety of Bobcat loaders\*;
- They are easy to attach and to operate;
- Use them in both forward and reverse drive;
- The reversible cutting edge extends the sweeper's lifetime;
- Increase the versatility with the optional gutter brush (54" or larger models only).

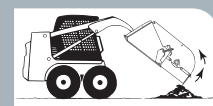

(\*) Check with your dealer for compatibility with Bobcat telescopic handlers.
